Municipal Elections.

The election of Council, school trustees held on Monday night did not incur as much interest as some previous years and only a moderate vote was polled.

No opposition was brought out against Mayor Chambers and he was elected by acclamation for another two year term.

For school trustees 118 votes were polled and for councillors 130 votes. The following were the results of the election.

School Trustees	
J. V. Berscht	80
W. G. Evans	87
J. E. Liesmer	75
Councillors	
H. D. Barker	39
A. Traub	73
C. H. Adshhead	108
B. Barrett	126
W. L. Pitt	85
S. Tighe	71

Wins First Prize At Dairy Convention

Mr. J. W. Wordie, of Didsbury Creamery, was winner of the first prize in the cream-grading contest at the Canadian Dairy Convention held in Calgary last week. There were fourteen entries of creamery-men from all over the province. The other winners were: Mr. B. M. Bliss, Youngstown, second, and Mr. H. G. Collier, Carstairs, third.

Obituary.

The funeral of Arthur John Crouse, the 14 months old son of Mr. and Mrs. W. H. Crouse, who died at the Didsbury Hospital on Friday, February 6th, was held at the Durrer Funeral Chapel on Saturday afternoon, Rev. A. R. Hayes officiated. The interment was made at the Didsbury Cemetery.

The death occurred on Sunday, of Lena, infant daughter of Mr. and Mrs. Peter Loewen. The funeral was held on Tuesday, at the Berglund cemetery.

On Monday, January 26th, the Junior C.G.I.T., spent a very enjoyable evening with the C.G.I.T. group at Olds. After a short business meeting in the United Church, they proceeded to the new school, where in the large auditorium, basket ball and other amusing games were indulged in. They then went to one of the girls' homes where a dainty lunch was served. The evening was enjoyed by all.

Prosecuting Brokers Comes High.

The province of Alberta showed a profit of \$178,068.76 as a result of the prosecution of Solicitors & Co. Ltd., according to a report presented on Tuesday in reply to questions asked in the legislature by W. R. Howson, Liberal, Edmonton. Expense incurred by the province in connection with this case, totalled \$71,932.24, divided as follows: \$48,500 as payment to solicitors; \$8,520.39 as fees and expenses of witnesses; \$15,570 as fees and expenses of experts and auditors; \$4,331.81 as expenses incurred by employees of the attorney-general's department in connection with the case.

A. L. Smith, K.C., A. McLeod Sinclair, K.C., and J. McKinley Cameron, K.C., who acted as crown counsel in the prosecution, were each paid the sum of \$14,500, according to the statement.

Broadcast Talks You Should Not Miss.

The discussion on the various problems facing the people of this province given by Mr. A. E. Otto, M.L.A., and Mr. C. L. Gibbs have been received so well that it has been made a regular monthly feature. The next one will be broadcast on Monday, February 16th at 9 p.m. The young people will want to hear Miss Jessie Montgomery's talk on "Heroes of Modern Adventure" at 8 p.m. This is the second talk in a most fascinating series.

Dr. Broadus' subject this week on "Great Books" series is Byron's "Childe Harold," and "Don Juan." This is given at 9 p.m. on Wednesday evening. It is not necessary to remind listeners of Mr. E. A. Corbett's talk on the "Early History of Alberta," on the air every Wednesday evening at 9:30 p.m. Two interesting talks are scheduled for the Farmers' Program on February 20th, commencing at 9 p.m. Dr. J. G. Malloch will speak on "Milling and Baking Quality as a factor in preparing for the World Grain Show," also Prof. J. McGregor Smith will talk on "Some Observations on Agricultural Machinery."

BIRTHS

Feb. 4th, To Mr. and Mrs. J. Clarke, a daughter.

Feb. 8th, To Mr. and Mrs. W. McCormick, a daughter.

Feb. 10th, Mr. and Mrs. C. Gibbs, a son.

"Pioneer" Want Ads bring results.

LOCAL & GENERAL

Mr. A. McGinness made a business trip to Calgary on Tuesday.

Mr. Geo. Keiver, of Sunnyslope, was a business visitor in Didsbury on Tuesday.

Mr. Carl Russell of Wetaskiwin, returned home on Tuesday night after visiting with Mr. and Mrs. T. Murphy.

Mrs. Mc Ghee, who has been confined to her bed with gonorrhea, is reported to be improving.

Mrs. Bertha Alden, of Los Angeles, California, who was a former resident here, is visiting friends this week.

"Gold Diggers of Broadway" will play a return visit to the Opera House on Monday, February 23rd. Special prices: 25c and 15c.

Don't forget the Saturday Night Dances in the Opera House. Lady, 25c. Gentlemen, 25c. Bellamie Orchestra.

W. Monteith, watchmaker and jeweller, located at North End Saddlery (N. Nowak). Watch, clock, jewellery, and optical repairs.

"Love Among the Millionaires" at Opera House tonight (Thursday). Lively Talkie Comedy-Drama with Clara Bow. 100% entertainment. Usual prices.

Word has been received from Melchior, Vancouver Island, of the death of Glen, 17 year old son of Dr. and Mrs. Gaudes. He died of sleeping sickness. The Gaudes were former residents of this district.

Mr. H. Steckley was a delegate from the Didsbury Contesting Association at the Western Canada Dairy Convention, held at Calgary last week. Messrs. O. W. Stauffer, Geo. Julien and J. W. Wordie also attended the meeting.

Many of the old timers, to the east of town, will be sorry to hear of the death of Mr. Fred Wilson, which occurred at Edmonton, on Friday last. Mr. Wilson for many years conducted a hardware store at Sunnyslope.

According to the Alberta Gazette, Mr. Norman Clarke has been appointed a member of the Alberta Live Stock Development Board, which has been organized by the provincial government.

Next week is "Educational Week" in Alberta. The theme at Knox Church at Westcott and Westdale will be in keeping herewith. There should be a good attendance, as all are interested.

Wm. Gontash, watchmaker and jeweller. Come and see me at the Club Lunch, opposite Rosebud Hotel. All work guaranteed. Prompt attention. Reasonable prices—Advt.

Eastern Star Entertain Past Matron.

The local lodge of the Eastern Star, entertained at the home of Mrs. S. Tighe, on Tuesday evening in honor of Mrs. Bertha Alden, of Los Angeles, who was the first matron of the Didsbury Chapter. Bridge was played and the following were the prize winners: Ladies 1st, Mrs. J. Topley, 2nd, Miss Laura Leisener, Gentlemen, 1st, Mr. J. Topley, 2nd, Mr. Tighe. There were a number of friends present and a very enjoyable evening was spent.

Ice, is being hauled from Innis Lake. The ice is about sixteen inches thick and appears to be good quality.

Messrs C. H. Adshhead and E. Ford, went to Calgary, last week to attend a Convention of Oldsmobile dealers, which was held at the Palliser Hotel.

On Monday next, February 16th, the C.G.I.T. girls, and Tuxis and Trail Ranger boys are inviting their mothers and dads to a mother and daughter, and father and son social evening in Knox United Church. The program consists of: chairman's remarks; sing-songs; a chalk talk by Mr. Hilton, of Calgary; stunts by the girls and boys; an address by Tom Haythorne, boys' work secretary of Alberta, followed by group games, and a lunch to close the evening. The girls and boys commence their campaign for finances on Saturday, February 14th, by selling shares. These shares give the purchaser the opportunity of taking part in the work of creating christian citizenship among the girls and boys of our town and province.

Coming Events

The Canadian Legion, Didsbury Branch will hold a Valentine Dance in Opera House tomorrow (Friday). Special old time dances. Admission, 50 cents each.

Concert and dance under auspices of Lone Pine W.I. will be held in Lone Pine Hall on the evening of Friday, February 13th.

Didsbury Obtains Big Lead In Play-Off

Didsbury took a seven goals lead against Innisfail in the first game of the intermediate provincial play-off at Olds on Tuesday evening, the score being 9-2 in favor of Didsbury.

Right from the start, the local boys showed their superiority over the Innisfail team, and during the first and second periods had everything their own way. The boys played real hockey, their combination being almost perfect. At the end of the second period they were leading 8-2.

In the last period Innisfail tightened up and sent the whole team forward to try to even up the score, and some real exciting hockey was witnessed. The goal keeping of Stauffer, however was sensational and although they peppered the goal with shot they were unable to land through it.

About half way through the period Liesmer broke through the Innisfail team and landed the puck into the net for the only counter of the period. The game ended 9-2 in favor of Didsbury.

Line-up of teams
Didsbury — Stauffer; Boucock, Ross; Cook, Johnson, Robinson; Hugst, Hardy, Liesmer, McCoy.
Innisfail — Marks; Thompson, Kirkham; Cook, Smith, Hall; Kirkham, Heathington, De Loux.
Referee: J. Anderson, Calgary.

Goal Summary
First period—1, Didsbury, Robinson; 2, Didsbury, Boucock from Hardy; 3, Innisfail, Cook.

Second period — 4, Innisfail, Cook from Thompson; 5, Didsbury Cook from Ross; 6, Cook from Robinson; 7, Didsbury, Robinson; 8, Didsbury, Ross; 9, Didsbury, Boucock; 10, Didsbury, Cook from Ross.

Third period—11, Didsbury, Liesmer.

There has been some criticism about the hockey boys taking their play-off game with Innisfail to Olds. The management of the hockey Club states that the condition of the ice on the home rink was in such poor shape that it was impossible to play the game here. They claim that had the rink been flooded during the last few nights, the ice would have been in shape for the game.

Submarine Grain Carriers For Future Is Visioned By Sir Hubert Wilkins, Explorer

Giant submarines, carrying the grain of the prairie provinces across Hudson Bay, under the ice of Hudson Strait and across the Atlantic some day will keep Churchill, Canada's sub-Arctic port, open all year round, Sir George Hubert Wilkins, noted British explorer, believes.

"I think large submersible grain carriers, of say 15,000 tons displacement, are the only thing if that Hudson Strait route is to be used properly," Sir Hubert told the Canadian Press.

Sir Hubert, who has flown over the Arctic ice and walked on it, expects to prove next summer that it is far easier to go under it.

His 170-ton submersible, "Nautilus," named after the craft in Jules Verne's "Twenty Thousand Leagues Under the Sea," he will attempt to travel 2,100 miles under the ice, from Spitzbergen to the Behring Sea. The "Nautilus" is now outfitting at Philadelphia, Pa.

She has been remodelled from an old naval type into what will be the summer home of 18 men, six scientists and a crew of 12.

While he has in mind, primarily, the acquisition of oceanographic and meteorological data, which among other things, will help weather forecasters, Sir Hubert believes the voyage will be valuable also as a demonstration that submarine operation under ice is really practicable. A new scheme of storing ice sufficient for two and a half days, he believes, will enable him to show that submersible craft may be navigated for hundreds of miles without being brought to the surface.

"Of course," he said, "I do not expect to see submarines carrying cargo at once, but I do believe that eventually submersibles will be necessary if Canada is to get the most out of Churchill."

"With submersibles," the explorer continued, "it would be possible to operate all year around, while three or four months a year is the most that can be expected of surface craft." In addition to this, the operation of submersibles would be cheaper because they would not require ice-breakers to keep channels open for them," he declared.

Sir Hubert remarked that the Dominion government, in building the Hudson Bay Railway, had expected a saving of one-and-a-half to two cents a bushel in the shipping cost of grain to European ports. He thought that the eventual placing of submersible grain carriers on the northern route would bring about a slightly greater reduction in the per bushel rate besides offering a total saving in shipping cost three or four times greater than would be possible were Churchill kept open for only a few months each season.

Predatory Animals In The North

The measures adopted by the Department of the Interior to encourage the white and native populations of the Northwest Territories to destroy predatory animals continue to bring satisfactory results. During the past fiscal year, the number of wolf pelts on which bounty was paid was \$20 per wolf, the pelt being turned into the department was 928.

Mexico is to have a new coast-to-coast auto highway.

"Your husband died only a fortnight, and you want to marry again?"

"Yes, mother, but next time I will wait longer."—Rosen Humor, Madrid.

King's Speech Preserved

Record Made Of Address At Opening Of Indian Conference

A gramophone record of the speech which the King made at the opening of the Indian Conference in the Royal Gallery of the House of Lords has been sent to Buckingham Palace in a special green leather case. The copper matrix of the King's speech has been sent to the British Museum to be filed away in the interesting collection of famous voices which are being preserved for posterity. In the Museum archives there are many of these voices which will be able to be heard in a thousand years time as well as they are today. Two of the earliest and they are photograph records are of Lord Tennyson, the Poet Laureate, and Mr. Gladstone, who made a speech for the Elston Photographic Company in 1880.

(By Eva A. Tingey.)

BACK TO HIPS

All Tingey models are created and sketched in Paris and the patterns are made in New York.

Not childishly but in a most sophisticated manner are we back to hips. They are often part of our very newest frocks.

Today's pattern includes a very charming example. Here on a dress of red maroon crepe is a cream georgette belt. It is very simple to make, for two flat pieces scalloped on the outer side are just stitched together along the curves and turned inside out. Voilà! a most professional effect. A ribbon either of the white georgette or red into the front (point edged or bound) can be fastened to the bodice and passed through slots as shown. The slightly shaped scalloped pieces, so very modishly placed on the hips and above the elbows are double and treated like the belt.

This pattern may be obtained in sizes 14 to 20. It is ready for immediate delivery. It is hand cut. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Canada's World's Last Great Fur Preserve

Output Has Increased and Supply Equal To Demand

Though the bison is gone forever, and the beaver and marten are slowly following, Canada's fur trade appears to be in no immediate danger of extinction. The state of affairs of a century ago when the value of fur exports exceeded that of any other export has been vastly changed in the Dominion's march of progress. But in that era the output has increased tremendously and government officials at Ottawa say Canada may still be described as the last great fur preserve of the world.

The forward stride made by the fur industry and the accompanying increase in exports might result in the fear that the source of supply is bound for early exhaustion. But fur farming is now furnishing an ever larger supply base to help meet the demands of industry for a new wrap or receptacle. The retail trade has played its part by popularizing common and even previously despised furs, and by encouraging the use of domestic animal pelts. In this latter category are the rabbit and the pony.

Experimenters in the breeding of rabbits for their fur resulted in the production of several valuable kinds. Chief among them is a species whose fur resembles that of the famed Bolivian chinchilla, and which, under the name of chinchilla rabbit, is becoming of high intrinsic value to the trade. Pony fur pieces, usually made from the coat of a "wee horse" common to Russia, have a wide market throughout the world.

A Neglected Market

Opportunity To Develop Export Trade In Hog and Pork Products

Some idea of the opportunity for Canadian farmers to develop the export trade in hog and pork products is afforded by figures with respect to dead meat imports into Great Britain as compiled from H.M. Board of Trade Returns. For the first ten months of 1930, bacon imports reached a total of 7,414,020 cwt., valued at \$31,922,663, and of this volume Canada supplied only 87,109 cwt., which had a value of \$433,955. During the same period imports of hams totalled 562,035 cwt., of which the United States supplied 715,322 cwt., or more than ten times the 70,988 cwt. supplied by Canada. Incidentally, these are the only two in a long list of dead meat import items in which Canadian contribution was sufficiently considerable to cite separately. Department of Agriculture, Ottawa.

Jinks "Old man, you certainly have a wonderful vocabulary."

Jinks "Yeah I wish I knew single again so I could use it."

Oddities Of Grain Situation Shown By Suggestions For Disposal Of Surplus Crop

Canada Colonizing Association

Encouraging Report Of Work Accomplished Submitted At Annual Meeting

At the annual meeting of the Canada Colonizing Association, held at the Royal Alexandra Hotel, Winnipeg, January 5, Colonel J. S. Dennis was re-elected president; P. L. Nalund, of Victoria, vice-president; and the following directors re-elected: D. C. Coleman, Winnipeg; C. T. Jaffray, Minneapolis; C. N. Bowman, Waterloo; James A. Richardson, Winnipeg; J. N. R. MacAlister, Montreal; S. C. Porter, Calgary; Geo. Walker, Calgary; and W. J. Blake Wilson, of Vancouver.

The annual report submitted showed a total of 4,107 families settled on 936,504 acres, the total purchase price being \$35,112,292.00; of this number 489 families were colonized on 92,968 acres during 1929. The purchase price was \$1,962,910.00.

"A thorough check-up of families settled by the association since 1925 shows that only 12 per cent. failed," Colonel Dennis stated at the close of the meeting. "Of considerable interest," he continued, "is that only 16 per cent. of the British families placed failed. The marked results with British families is due to careful selection and constant supervision."

All farms and families colonized were personally visited during the summer and fall by the staff of the association and classified under four ratings: "A," successful not requiring further supervision; "B," on the road to success, still requiring supervision; "C," doubtful, still requiring considerable supervision and "D," failures.

While a large number of the families colonized were from Great Britain, northern and Continental Europe, the settlement services of the Canada Colonizing Association, as Mr. E. W. Beatty announced at Saskatoon last fall, have always been available for Canadians of agricultural experience and training, who wish to take up farms and follow agriculture as a permanent vocation.

In the province of Manitoba, 1,152 families are settled on 290,919 acres. "The work of the association covers the provinces of Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia and is maintained as a subsidiary of the Canadian Pacific Department of Immigration and Colonization," said Col. Dennis.

T. O. F. Heizer was reappointed manager and A. E. Lower, secretary-treasurer.

Oddities of the grain situation in the prairie provinces are numerous, and the many suggestions for the disposal of the surplus crops run the gamut from a \$1,000,000 purchasing plan as the contribution of a large commercial firm to a bushel of wheat for admission to hockey matches of a rural league in Alberta.

With the price of wheat slumping from \$1.40 a bushel value of a year ago to the 50-cent level of today, agriculturists in many areas have found substitutes for its use resulting greater monetary reward than ordinary marketing.

The greatest use and the one likely to bring the most valued monetary return is the finishing of livestock for market. When high values prevailed, agarians were content to sell "feeder" cattle, which were finished by the buyer. Today they are feeding oats and barley and shipping their cattle and hogs ready for the scales of the stockyards. Thousands and thousands of bushels have been disposed of in this way.

Some prairie districts have abundance of grain, but lack fuel and money to buy it with. They have found a substitute for the coal of Alberta and the products of the forest areas of Manitoba by burning barley—now at the lowest level in history—in the famed Quebec heaters. A bushel a day is the consumption of the heater, and it makes some fire is the comment of one user.

The latest suggestion comes from Calgary, where a "grain products relief association" has been established. Contributions of grain will be sought in rural areas, and with the cooperation of millers, it will be ground for the use of the needy of Calgary and district. Already several thousands bushels of wheat and oats have been donated.

Ye old man has come back to Manitoba communities. Farmers in the prosperous years purchased their flour from the town grocer, now they are having their own grain milled and the little community mill—closed for a decade or more—is in business again.

Another suggestion was the "constitution a bushel of wheat to the starving Chinese," but lacking organized effort, it remains "just a suggestion," like so many other plans to relieve the burden of the roller of the soil.

For Smut Control

Found That Hot Water Treatment Controls Loose Smut

The modified hot water method for the control of loose smut in wheat has been found effective and satisfactory in experimental work conducted at the Indian Head Experimental Farm of the Dominion Department of Agriculture. This method consists of placing the grain in loosely woven sacks and then soaking it in water at 80 degrees Fahrenheit for four hours to soften the seed and prepare it for the action of hot water. The grain is then transferred to water at 112 degrees Fahrenheit for fifteen or twenty minutes and next into water at 120 degrees Fahrenheit for exactly ten minutes. This hot treatment is very important and should be carried out with the greatest care throughout. When the grain is finally removed from the hot water it may be plunged into cold water for a moment and then spread out to dry, care being taken to see that it does not germinate or freeze.

The two young sons of Premier Mussolini of Italy, Vittorio (left), and Bruno, photographed after they had become bona fide members of the Fascist militia. They are shown in their "blackshirt" uniform.

"That man spoiled my marriage." "Did he make love to your wife?" "No, he married our cook, and now my wife cooks."—Sondagsnisse-Siva, Stockholm.

LOCAL & GENERAL

Mr. Sid O'Brien, is driving a new Chevrolet Sedan and Mr. E. Jackson, has purchased a Chevrolet Coach.

A play entitled, "A Little Bit of Fluff", is being given by the Harmon players on Friday evening at Harmonian.

Our annual order supper, which drive and dance, takes place on Friday, Feb. 20th in Community Hall. Three piece orchestra.

Miss Marie Cameron, of Calgary, spent last week convalescing, after a long illness, at the home of Mr. and Mrs. W. G. Lissmer.

If your Radio needs repairing or re-tuning, call at the Pioneer Office. E. A. Ahlin is an expert on battery sets.

Mr. W. F. Lyons, sold three head of his pure bred Swedish short-horn calves to the Olds Agricultural School last week. Mr. A. Snyder, also sold a calf to the school.

We are pleased to report that Mr. W. McGinnis, who has been a patient at the Didsbury Hospital for several weeks, is now progressing very nicely.

Miss Winifred Studer, has returned to Didsbury, having resigned her position as primary teacher in the Eastern Consolidated School, on account of illness.

Word has just been received that "Kobeno", a Japanese tea-house proprietor, is contemplating a tea garden along Japanese lines in Olds in the near future. Watch for further announcement in next week's issue.

Cards of Thanks

We wish to thank all our friends and neighbors, for their kind sympathy and help during our recent bereavement.

Mr. and Mrs. W. H. Crouse.

Mrs. E. Y. Wood wishes, in this way to express her appreciation and thanks to the friends and neighbors who the Hospital staff for their help and sympathy during Mr. Wood's sickness and death. Also for the beautiful floral tributes.

NOTICE FOR NOMINATIONS FOR ELECTIONS

Municipal District of Mountain View, No. 210, Municipal Elections, 1931.

PUBLIC NOTICE is hereby given that a meeting of the electors of the Municipal District of Mountain View, No. 210, will be held at the Agricultural School, Olds, Alberta, at seven o'clock p.m. on Saturday, the 21st day of February, 1931, for the discussion of the affairs of the district, and then from three o'clock p.m. to four o'clock p.m. on the same day and at the same place, nominations for the office of Councilor will be received. Three Councilors are to be elected.

Candidates are to be elected for the following electoral divisions: Division No. 1, Division No. 2, Division No. 3. GIVEN under my hand at Didsbury, this 9th day of February, 1931.

HUGH McLEAN,
Returning Officer.

New Lines of Beauty in 1931 Oldsmobile

The 1931 Oldsmobile, higher-powered and redesigned along strikingly beautiful lines, has just been introduced. The larger picture shows the standard two-door sedan. Below is a front view, revealing beautiful contours. The 1931 car possesses many new mechanical refinements.

Genuine Gratitude

Compels Tribute.

Mr. Victor Hills, of Thornton Heath, writes: "For many years I have suffered with that distressing complaint—constipation, and its attendant effects of sick headache and indigestion. It was a red-letter day for me when a friend recommended me a treatment of Carter's Little Liver Pills, and I can honestly say that results have been truly marvelous. I now enjoy good health and feel that life is worth living. The relief I have experienced compels me to add my sincere tribute." Take Carter's Little Liver Pills. All druggists 25c and 75c and 10c.

WORLD HAPPENINGS BRIEFLY TOLD

The winter cruise of H.M.S. Vancouver started on January 26 to the foreign ports of the Pacific Ocean.

Television will be a commercial proposition within five years according to Major-General Harbord of the Radio Corporation of America.

Canadian art will be exhibited at the British Empire Trade Exposition at Buenos Aires in March and April, 1931.

Deer have become such a pest in certain parts of New Zealand that plans for their extermination has become a difficult problem, and many remedies have been suggested.

For the first time since it was dedicated in 1753, the Mansion House, home of the Lord Mayor of London, is empty, city officials having moved to a hotel while the building is being modernized.

From the land of the midnight sun in Alaska to the pampas of the Argentine will be the route of the international highway now being projected by governments, good roads associations and automobile clubs of the countries concerned.

The authorized fish catch in Saskatchewan bays, large and small, approximates 10,000,000 pounds a year, according to estimates of the Department. Approximately 1,400 men were employed in Saskatchewan fisheries last year.

Elk, which roamed in countless thousands over the northwest years ago, and which have since been reduced to a few scattered herds, will be given a chance to multiply again on the wild lands of the Queen Charlotte Islands, far from the hunter's trail.

Just Right For Upset Stomach

The effectiveness of this new, scientific method of treating the upset stomach and indigestion, which has been proven by the fact that it has been used by the military and naval forces, and by the fact that it has been used by the military and naval forces, and by the fact that it has been used by the military and naval forces.

New Industry

Manitoba To Manufacture Frames, Cash Foundations and Honey Extractors.

As a result of an investigation made by the special committee of the Industrial Development Board of Manitoba into the Manitoba honey situation, Manitoba is to have two new industries. One is the manufacture of frames, which were previously purchased in the east, and the other is the manufacture of cash foundations and honey extractors.

CORNS RELIEVED instantly! PUTNAM'S Corn Extractor

W. N. U. 1872

Doctors Use By-Products

Articles Used in Modern Medicine By-Products Of Meat Packing Plants

Several of the articles used in modern medicine and surgery are by-products of the meat packing industry. When, in an operation, a blood vessel is tied to stop bleeding, the ligature used is made of tissue bands from the organs of animals. The stitches "buried" under the skin or left in deep-seated organs to be absorbed come from animal tissue.

When after a major operation the digestive canal is temporarily paralyzed, the surgeon uses a powerful extract of tiny pituitary glands, carefully removed from the brains of animals, that give the patient prompt relief.

The thyroid gland produces a substance which it throws into the blood stream and which in some way controls mental and physical growth. Today it is claimed by some medical men that feeding an extract of the thyroid quickly converts a backward child into a normally alert human being. Thyroid substance is necessary through life.

Though the discovery of the use of Secur's Banting and Best at Toronto, is scarcely ten years old, the brilliant results from its use in diabetes are universally known. Insulin enables diabetics to lead comfortable and useful lives. It is prepared from the pancreas, a rather small gland intimately connected with the digestive system. Insulin is recognized as one of the greatest contributions to the science of medicine. From the pancreas are also manufactured substances that are prescribed for various digestive disturbances.

The packing industry also prepares many other glands and organs from which extracts and other active principles are made for use in medicine and surgery. There is a keen demand for most of these medicinal preparations. In general, only in packing plants where large numbers of meat animals are dressed can a sufficient quantity of glands be economically secured. For example, it requires the adrenal glands from nearly 25,000 cattle to produce a pound of adrenalin, and materials from the pancreas of about 150,000 hogs or 60,000 cattle to produce a pound of pure, dry insulin.

The Oil For the Athlete.—In rubbing down the athlete will find Dr. Thomas' Electric Oil an excellent article. It relaxes the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Fish Farming

New Idea Is Being Promoted In British Columbia

"Fish Farms" are now being promoted in British Columbia. An undertaking is under way to obtain from the Provincial Government a long lease of a small lake which is to be stocked with commercial fish, such as whitefish or lake trout, with a view to providing the general market with fresh fresh-water fish. The fish would be ready three or four years after stocking the lake.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unsatisfactory conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

An Automobile Electric Plant
South America's first, automatic hydro-electric plant, five miles from Juiz de Fora, Brazil, is reported to be operating successfully. It was opened recently when a Brazilian official closed a switch in an electric station in Juiz de Fora. After then turbines have continued to spin although there are no human attendants there.

Letter from firm of easy term furnishers: "We are surprised that that money owing to us has never reached us."

Reply from client: "Do not be surprised. The money has never been dispatched from this end."

Saskatchewan Oil Discovery

Another Find Of Oil Reported In The Readlyn Valley

Another find of oil is reported in the Readlyn Valley on the farm of Thomas Powley. It is found that when pumping water a greasy substance comes up with the water and when separated readily ignites.

This greasy substance comes up through a strata of sandstone and this sandstone, when split open, reveals supplies of fuel leaves embedded in the rock. P. Bridger, of Readlyn, Sask., opened up some of the sandstone formation and on splitting the rock found the leaves in almost perfect condition. It appears that at some time the whole of the valley must have been a dense forest.

The farmers are of the opinion that gas and oil abound in huge quantities under the rock formation at less than 100 feet. Most geysers exist in eight or nine places and seem to be bottomless, continually bubbling with grease and oil.

The Canadian Pacific Railway runs right through the centre of this coal and oil valley from end to end. A government inspector stated that requests have been received to drill in the townsite of Readlyn but so far no permission has been granted owing to the compact nature of the village.

The new find of Thomas Powley is just one mile up the valley from the C.P.R. depot and of course would be less hazardous for exploitation.

Swedish Railways Plant Trees

More than 3,000 fruit-bearing trees and bushes were planted last year by the Swedish state railways. Nearly 200,000 such trees have been planted, making the government railroad the largest growing establishment in Sweden. The trees are tended by railroad employees.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

The Loudest Noise

A Montreal scientist says there is too much noise in the world, but fails to point out that the loudest sound of all is that made by the ticking of the clock in a store that does not advertise.

Canada's Fisheries

The product of Canada's fisheries in 1929 had a total value of \$33,315,521.

Serious Rectal Troubles Often Caused By Harsh Cathartics

ENO'S "FRUIT SALT"

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

Another Scientific Discovery

Short Wave Radio Said To Cut Violence Of Diphtheria Poison

Science has opened a hitherto unknown opportunity for short wave radio, a newly found power to cut the virulence of diphtheria poison.

In one sentence this discovery was summarized to the Society of American Bacteriologists by Wladimir T. Szymanski and Robert Allan Hulse of Western Pennsylvania hospital, Pittsburgh.

"Highly potent diphtheria toxin," they stated, "is found to be diminished in strength by the action of short electric waves, 1.9 and 3.75 meters, at approximately 125,000,000 and 80,000,000 cycles per second."

Diphtheria toxin is the poison which causes the disease and is produced by diphtheria bacteria. The radio waves are the same sort which were announced about a year ago as producing artificial fever in human beings.

B.C. Apples For Java

Dehydrated apples shipped by Bulmans Limited, to Batavia, Java, have given such satisfaction that another order for three tons, the original quantity has been booked. The apples are shipped in five pound tins.

A mosquito that stores up fat in the summer time, like a bear, and then hibernates in the winter in sheltered spots is found in northern Montana.

Flowerpot Island

Island In Georgia Bay Turned Over To National Parks Board

Flowerpot Island, in Georgian Bay, has been turned over to the national parks branch of the Department of the Interior. It is situated at the north end of the Bruce Peninsula, and gets its name from two rock formations that resemble huge flowerpots. They have been formed by erosion by the sea, and have trees growing on the top. The parks branch will reinforce the "flowerpots" as their bases are in danger of being eaten away entirely by the action of the waves.

Chest Colds Yield to this Treatment

Redden chest with hot wet towels; rub on—apply thickly—

VICK'S VAPORUB

OVER 12 MILLION JARS USED YEARLY

New Building For Grain Show

The general meeting of the Regina Agricultural and Industrial Exhibition authorized the building committee to proceed with the plans for the erection of the new grain exhibition building for the World Grain Exhibition and Conference in 1932.

Try this delightful

MAGIC

MENU

Next time you're entertaining, try this delightful Tea Menu, suggested by Miss McFarlane, Liaison of St. Michael's Hospital, Toronto.

TEA MENU

Tomatoes stuffed with pineapple
Graham Gems* Nut Cookies
Chare & Sanborn's Tea

Miss McFarlane says: "My personal experience with Magic Baking Powder dates back many years. Consequently, I always use and recommend it because I know it will give dependable baking results. Even a beginner can use it confidently."

Here is Miss McFarlane's Recipe for

*GRAHAM GEMS

1 cup flour	1 cup Graham flour
4 tablespoons brown sugar	1 cup milk
1/2 teaspoon salt	1 egg
4 teaspoons Magic Baking Powder	4 tablespoons butter, melted

Mix together white flour, sugar, salt and baking powder. Add Graham flour, add milk, egg and melted shortening and beat well. Half fill muffin tins and bake in hot oven at 425 F. about 20 minutes.

Buy Made in Canada goods

MAGIC Baking Powder ensures better baking results

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, away again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colicky children's distress, you should use it to keep the system from clogging.

Castoria is sold in every drugstore; the genuine always bears Chas. H. Fletcher's signature.

CHAPTER VIII.—Continued.

"Come," he said at last, "take down those hands or I'll do it for you, Sit down, Angela. If you're really suffering, I'm sorry; but you're a good actress, and you've cheated me too many times. I never mention the Ashtleys unless you drive me to it, or as a warning. God do you think I want to remember?"

She sank onto a divan, and her arms relaxed. Her husband moved nearer.

"You told me," he said, "that if you had a garden something to work over, you'd be safe. You were frightened, I'm sure. You probably believed it. But I can see now that the garden is only a pose. It doesn't absorb you any more than does your painting or your singing, as which you might do something worth while. Nothing has ever absorbed you but the pursuit of man. If you had a child—"

She looked at him, and her lip curled.

"Didn't you once say that I was not fit to be a mother?"

"You're not, but—"

Her eyes blazed.

"I suppose you'd like to see me turn into a dove, like that stupid little moron next door. Two babies in four years? I call it indecent. I don't believe she's seen her back hair in a mirror since the first one came. I doubt if she's had a new gown since

the last. I dare say she'll have a third before she has time to see a dressmaker. That sort always does. She's stupid too stupid to know her own husband too stupid to see that a man won't stand her untidy ways. Why, by lifting a finger I could have Nick Hastings eating out of my hand!"

"Take care then, that you don't lift it; but I'm not so sure. I thought you lifted more than a finger the other night, and as I told you then it didn't work."

Angela laughed bitterly.

"Well, I'll show you that it will work. I—"

"You will not? Do you understand? I don't ask you to promise, because I know you don't keep your promises; but I shall watch, and you know, Angela, things don't escape me."

He moved toward the door as if the interview were at an end; then paused, looking back at the blue figure on the divan. Angela's shoulders had drooped in an attitude of such weariness as she seldom allowed herself. Even her eyes looked tired; and at the sight something hovered wistfully across her husband's face—an elusive thing that seldom came there, wiping away the cynicism, leaving in its place a glimpse of something better that fought unhappily for life. He turned, and going to her side, laid his hand gently on her arm.

"My dear, I don't mean to be unkind. Deep in your heart you know that I have never been unkind. don't you? More than anything in the world, Angela, I desire your happiness. There is nothing I would not do for you, if—if you could be satisfied with me alone."

"You?"

She sprang up, shaking off his hand as if it scorched her.

"You?"

She laughed, scornfully, and sweeping past him without a glance, ran up the stairs.

For a moment James Halliday stood where she had left him. It was not until the sound of her feet was silenced, that he sighed, wearily, like a man who has fought and lost. Then, catching sight of himself in a full-length mirror, he straightened up, and his lips took on their familiar, unpleasant curve. There was no trace left of the thing that had lighted his face a moment since; and with a shrug that might have been Angela's very own, he went back to his study and the day's work.

CHAPTER IX.

Gay had been gone a month, a month that had brought color to her cheeks and rest to her eyes. She was right in thinking that morbid ideas couldn't live under the same roof with Uncle Sam. His unflinching kindness—his faith in God and his fellow men—was something before which doubt and suspicion faded away. And the Sunday with Nick had been like a shrug that might have been Angela's repetition of their honeymoon. One never-to-be-forgotten day they left the babies with Uncle Sam and his housekeeper, and tramped off together, as care-free as two children out of school.

"You just leave your responsibilities with Miss Bemis and me, and forget all about 'em for a spell," said Uncle Sam. "You'll be all the gladder to pick 'em up again when you get back."

"You bet we will!" said Nick, lifting his youngest responsibility for a liss. "Come on, Gay, Mrs. Bemis

GAS relieved

WHAT most people call indigestion is usually excess acid in the stomach. Food has soured. The instant remedy is an alkali which neutralizes acids. That don't use crude herbs. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate with no harmful after-effects.

Once you learn this perfect way you'll never deal in any other manner with the headaches, gas, bloating, indigestion, indigestion, biliousness, etc., due to an over-acid stomach.

Be sure to get genuine Phillips' Milk of Magnesia. It is always a light, never made in tablet form. Look for the name Phillips on the bottle. All drugstores sell it.

PILE PAIN

Ends Right Away

"The very first time I used 'Soothe-Salt' I was cured. I don't know of any other salt. Stopped swelling and itching. Quick relief known. All druggists."

knew the ins and outs of infant feeding before you were here."

"That's right," said Simon. "I can now and don't keep Nick waiting. Shan't look for you till the cows come home. Gorry! you don't neither of you look old enough to have two babies!"

"We don't feel old enough—today," laughed Gay, as they turned away. Simon, Sonny on his knee, watched them lovingly till they turned the corner.

"It's a good thing to be young," he murmured dreamily, "but it ain't had been old, neither, so long as you've got something young around you. Don't hardly know what I'll do when Gay takes these babies back to Bakersville. Wish my old woman could see 'em. Maybe she does. Like us, she knows just how I'm a settin' here with Sonny on my knee. Well, little boy, you want to feed the chickens?"

"Yep," answered Sonny eagerly, and slipping off Simon's knee, went straight for the umbrella, much to the admiration of his adopted uncle.

As for Gay and Nick they forgot their cares with amazing ease. They climbed Bear Hill, the nearest approach to a mountain that the vicinity possessed, and later, in the cool of the forest shade, they waded a brook, while Nick built a dam: the task that getting married had interrupted four years before.

It was Gay who first noticed him of that long-gone interruption. She sat on a convenient rock, her feet in the water, and watched him work.

"I hated to keep you from building the dam that day, Nick," she said regretfully. "It seemed weird that you shouldn't do everything that came into your head; but I thought you'd forgotten what was before us, and I was nervous, even while it worried me to stop your fun. It worried me all the way to State Lane."

"Idiot!" said Nick, pausing in his absorbing task to throw her a smile of understanding. He worked silently for a while, then stopped to survey the finished product of his labor.

"Some dam, my dear! I ought to have been a civil engineer. Always wanted to, and I bet you, Gay, I'd have made a good one; but uncle wouldn't consider it for a minute."

He came nearer, and sat beside her on the rock.

"Say," he exclaimed happily, "isn't it great being off here together? How cunning your feet look in the water!"

"Cunning?" laughed Gay. "I'd hardly call them that; though beside yours they do look well, smaller than usual."

"They're small enough; and they haven't been spoiled by the spike heels our fair neighbor persists in wearing. I wonder what she'd think, Gay, if she could see us now!"

Sudden color dotted Gay's face, and she drew one foot up out of sight.

"You mean Mrs. Halliday? Why, I suppose she'd think it was—impossible."

Nick shook with laughter.

"Gay, you're the funniest kid I bet just remembering Mrs. Halliday and her fastidiousness, made you feel ashamed. Put that foot back. There are no fussy city people around, and I like you just as you are. I wouldn't give a red cent for a wife who wasn't a pal as well. Say, sweetheart, let's bring Sonny up here some day to see this dam."

"I thought you were ordered to forget your responsibilities," Gay answered, as her foot slipped back into the cool stream.

"I don't regard Sonny as a responsibility today, anyway. He's a good little chum, just as you are. Do you know, dear, sometimes it comes over me how bleak life would be without you all. Just suppose I hadn't gone over to say good-bye to you that morning!"

Gay looked at him, her eyes brimming with tenderness.

"And you so nearly forgot me, darling."

Nick stared. He had never told her how true that was. Even now, as she slipped an arm across his shoulders, he felt ashamed at the memory.

"Did you think for a minute that I

didn't know?" she questioned gently. "I was in the garden when I saw you come out with that stick and bundle. Could I have misunderstood, after the times we'd planned your going? And when you turned away something—something went dead in my heart. Nick, it seemed so terrible that you could go like that—without a word—without even a thought of me, when I loved you more than anything in the whole world!"

"You loved me?"

She smiled at his amazement.

(To Be Continued.)

Will Use Canadian Materials

City of Saskatoon Will Insert Special Clause In All Contracts

Acting on a recommendation from the Department of Trade and Commerce, the City of Saskatoon will in future include a special clause in all contracts providing that materials used shall be Canadian products where possible. Permission to use foreign materials will be granted only where sufficient cause is shown.

Crying Babies Are Sickly Babies

The well child does not cry. He is laughing and happy all the time. Baby's cry of distress is the only means he has of telling the mother or nurse he is ill. Mothers, you can keep your little ones well and happy by giving them Baby's Own Tablets—the safe and efficient remedy for all childhood ailments.

Baby's Own Tablets are a mild but thorough laxative. They sweeten the stomach, regulate the bowels and thus banish constipation and indigestion; break up colic and simple fever and allay the irritation accompanying the cutting of teeth. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadian Cobalt

Canada continues to supply practically half the world's requirements of cobalt, the remainder coming chiefly from the Belgian Congo. Practically all the cobalt produced in Canada is a by-product of the silver mining industry and is obtained by treating arsenic silver-cobalt-nickel residues from the Cobalt, South Lorrain, and Gowganda silver camps.

Douglas' Egyptian Liniment. Always quick always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

In Honor Of Anundsen

Firing of a 200,000 candle-power searchlight from the summit of Pike's Peak in memory of the late Roald Amundsen, famous explorer, is the salute for 1931 by the Ad-Anan Club, mountain-scaling organization, of which Amundsen was a member.

At Last! The Truth About PIMPLES

Pimples, acne and blackheads are caused by a rundown, disordered system. Excess of these harmful acids and toxins which make your skin break out. So you want beauty to rest yourself of that ugly, blemished complexion and to obtain beautiful, smooth and soft skin for all time—ever sparkling like diamonds—superbly daily health—

Take Kruschen Salts.

Kruschen Salts are a perfect blend of the six vital salts which nerves, glands, blood and body organs ought to receive from food if they're to work properly—but it's simply impossible to obtain these salts in these days of modern cooking!

Therefore take Kruschen Salts in a glass of hot water every morning before breakfast—this quickly puts back these precious minerals into your system—and drives out harmful acids and poisons, assuring you a healthy and glorious youthful beauty and health.

Little Helps For This Week

"I must work the works of Him that sent me, while it is day; the night cometh, when no man can work."—John 9:4.

Rest not content in thy darkness, a

Work for some good, be it ever so

lowly;

Let thy great deeds be thy prayer to

thy God.

—Frances S. Osgood.

Remember now and always that

life is no idle dream, but a solemn

reality, based upon reality and on

compassed by eternity. Find out your

task, stand to it; for the night

cometh, when no man can work.

—Thomas Carlyle.

Persian Balm

The creator and preserver of beautiful complexions. Tonic in effect and wonderfully stimulating. Safeguards and beautifies the most delicately-textured skins. Cools and relieves all skins flushed or irritated by weather conditions. Miraculous in results. A little gentle rubbing and a youthful freshness and daintiness is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect toilet requisite for the woman who cares.

Had Eye On Australia

A curious map, now in the possession of the French Geographical Society, reveals that Napoleon Bonaparte once planned to invade Australia and annex it to France. The map is covered with notes written by Napoleon and contains the outline of his proposed attack. Prince Roland Bonaparte, descendant of the Emperor, presented the map to the society.

To think of a clever but cutting remark, and then not make it—there is a sign of nobility.

FREQUENT PAINS ?

NEVER let a throbbing head interrupt your shopping! Or other pain that Aspirin ends so quickly. These harmless tablets are an antidote for the most acute pains. Relief is almost instantaneous. Taken in time, they will break up a cold and head off discomfort. They'll relieve your suffering from neuralgia, neuritis, or the like, at any time. Thousands of

women depend upon Aspirin tablets even more than upon their men because these pains peculiar to women. These tablets do not depress the heart; they may be used as frequently as there is need of them, and with no discomfort. So, it's folly to endure any pain that Aspirin tablets could relieve so promptly. Get the genuine, which is always to be had at any drugstore.

Burnside Notes

Mr. Joe Clark, is spending a few days in Turner Valley.

The Lone Pine W. I., met at the home of Mrs. C. R. Liewner, on Thursday last, with a good attendance of members and visitors. Plans were made for the concert and dance on February 13th. An egg-slower will be held at the next meeting, for the Wood's Home. Miss Helen Pross, took the topic, "Canadian Industries" and gave a splendid paper. The programme was interspersed with singing of old songs which were much enjoyed by all.

The next meeting will be held on March the 5th at the home of Mrs. A. A. Jenkins, when Mrs. B. Woods will have charge of the topic, "Agriculture".

Born — At the Truett Hospital, on Sunday, February 1st, to Mr. and Mrs. Wm. Saunders, a son.

Mrs. Alex Leiper and Mr. Ernest Simmonds, of Turner Valley, visited with Mrs. Joe Clark and other friends, for a few days last week.

Mr. Charles Macdon, returned Saturday evening from Edmonton, after attending the trustees' convention at that city.

Miss Lydia Bittner, spent Sunday with Miss Helen Pross.

Messrs. H. Shells, Sam McMillen, and H. Horgan, Olsen, were Calgary visitors, Wednesday and Thursday of last week.

Don't forget the W. I. concert and dance, in the Lone Pine Hall, on Friday evening, February 13th. A good programme, followed by lunch and dance after, with Roddekoppe's orchestra furnishing the music.

Mrs. A. E. Thompson and Mrs. N. Eckel, were Olds visitors on Monday.

Mountain View Notes

Mr. H. Roberts, returned from Edmonton on Saturday, after attending the Rural Trustees' Convention.

A base-ball game was staged between Neapolis and Mouna schools, Friday afternoon, at Neapolis school grounds. The score was 3-6 in favor of Mouna. All pupils from Mouna were seen journeying south at 2:30 p.m. in great glee.

A whist drive and dance was held on Friday night at Community Hall, in aid of funds for the school fair. Several residents from each school district were present, which denotes the keen interest taken in this affair. Prizes were awarded to Gents 1st, Mrs. E. Atkinson, Ladies 1st, Mrs. J. Hayes. Consolation, Miss Mina Viney and Master James Hill.

BAPTIST CHURCH—WESTCOTT

Rev. J. H. Curtis will conduct a service in the Baptist Church at Westcott at 7:45 p.m. next Sunday, Feb. 15, and that he will be pleased to announce a new program for the time of services for the ensuing months.

Didsbury, Alta.

Melvin Notes.

Messrs. L. V. Swingle, and Chas. Foss were guests at L. Chandler's on Sunday.

Mr. and Mrs. Cuffling were dinner-guests at the home of Mr. and Mrs. August Krebs.

Ethel and Eddie Krebs spent Sunday evening at the Alfred Cowitz home.

Miss Marion Johnston and Mr. Hugh Morlan spent Sunday evening at Emil Krieb's.

Miss Elizabeth Sutherland, of Morningside, Alberta, is guest this week of Mrs. Chas. Youngs.

Mr. and Mrs. Thos. Duncan spent Sunday at the home of Mr. and Mrs. G. A. Youngs.

Miss Dorothy Cipperley spent Thursday with Miss Marion Johnston.

Mr. and Mrs. Everett Clarke, of Didsbury, spent Sunday at the home of Mr. and Mrs. John Clarke.

Misses Mildred Brown and Dorothy Youngs, and Mr. Cecil Brown motored to Calgary on Saturday.

Mr. and Mrs. A. Krebs were guests at the surprise party at Mr. and Mrs. Gulliver's on Tuesday night.

Mr. and Mrs. Geo. Youngs entertained the neighbors on Tuesday evening with a very pleasant whist party.

Tommy Johnston and Frank Blanchett, of Drumheller, spent Saturday at the home of Mr. and Mrs. Peter Johnston.

The Club was well patronized, all having a jolly time. Miss Marion and Ronald Johnston have charge next Saturday night. Come and join the merry crowd.

A number of the young people attended the hockey match at Westerdale on Sunday between Westcott and Westerdale. Score 4-2 for Westerdale. They intend playing again in town Thursday.

The dance at the school Friday night was overcrowded, which is proof that we need a hall. The costumes were very good. Mrs. Hugh Brooks and Mr. Cuffling won the prizes.
